SHADES OF EXCELLENCE

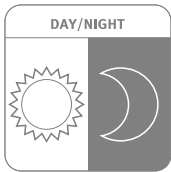

DAY

PLEATED SHADES

Offered in crisp, 1" pleats in Day, Day/Night and Night fabric options. Scan the QR Code below for more information!

Pleated Day Shades are manufactured with a sheer or see-through type of fabric, which provides light and shade at the same time. Day Only shades would be used in applications where total privacy is not the primary function i.e., sun rooms, vans, etc. Depending on the fabric, there are varying degrees of transparency with this type of shade.

DAY/NIGHT

Pleated Day/Night Shades offer the best of both worlds, actually two shades in one. A night fabric will pull all the way down for privacy, or, it can be moved all the way to the top, exposing a full length day shade. Either one can be set in any position for maximum flexibility. Day/Night shades are very popular in a variety of applications including residential, RV, commercial and marine. They also allow for various decor opportunities, as the two different fabrics can be different colors and hues if desired.

NIGHT

Pleated Night Shades provide total privacy when extended to the full down position. A variety of fabric types are available including Stitchbond and others. For those who desire maximum privacy, a blackout liner can be applied to the backside of the fabric. This eliminates nearly all light infiltration. Night Only shades are excellent in a variety of applications, including residential, RV, commercial and marine.

CLASS B COCKPIT SHADE SYSTEM

PRIVACY IN PARADISE

United Shade's CockPit Shade System delivers instant privacy and UV protection with custom-fit panels for the windshield and side windows. Designed with input from Class B manufacturers, it offers a snug fit, easy setup, and a sleek, foldable design that stores neatly in the included carrying bag. The reflective backing helps block heat and keep interiors cooler—comfort and convenience made for the road.

Superior Sun Protection - Reflective backing blocks harmful UV rays, reduces heat and glare, and protects interiors from sun damage.

Effortless Use - Easy press-to-fit design means quick setup and removal—no tools, no hassle.

Privacy Where It Matters - Custom-fit for Sprinter, Transit, and ProMaster® models, delivering full coverage for the largest windows in your van.

Better Climate Control - Reflective materials help regulate interior temps, boosting comfort and energy efficiency.

Built for the Journey - Made with high-quality, road-ready materials for lasting performance.

Modern Style - A sleek, fitted look with a chic carrying case that complements today's Class B interiors.
